(2019) A BODIPY-Based Donor/Donor-Acceptor System: Towards Highly Efficient Long-Wavelength-Excitable Near-IR Polymer Dots with Narrow and Strong Absorption Features. *Angew Chem Int Ed Engl.* [IF=11.954]

UM Open Day

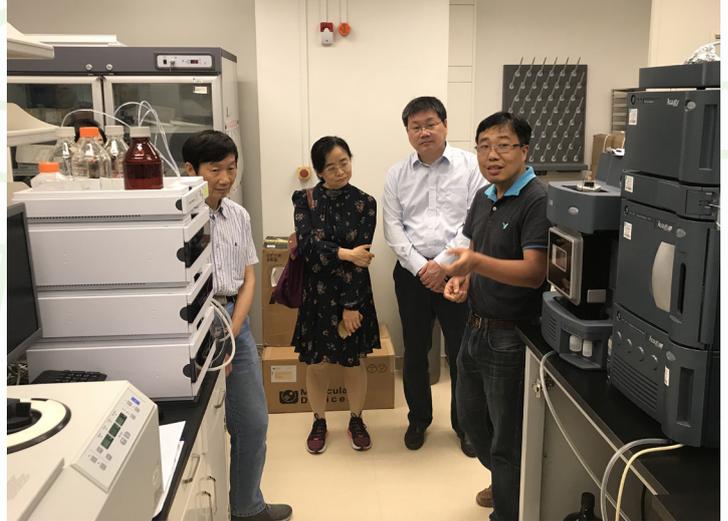

On 14 May, FHS received nearly 400 public guests for the UM Open Day. Scientific game booths were prepared to distribute the basic scientific knowledge to the public guests. Visitors liked and enjoyed the games and appreciated the effort for organizing the games. Moreover, with the launched of the new programme, B.Sc. in Bioinformatics and M.Sc. In Data Science (Precision Medicine), students who have interests in these programmes came and consulted our teachers regarding the details of these programmes.

GUEST VISIT

Delegation Visit - Shanghai Industry of Pharmaceutical Institute

Delegations of Shanghai Industry of Pharmaceutical Institute visited FHS on 12 May. Prof. Chuxia DENG received them in N22 Research Building in that morning and showed them the research environment of FHS. The guests appreciated the founding of the animal facilities, fish room and core facilities. Prof. DENG then presented the development of FHS and had discussion with the guests in the subsequent meeting.

Delegation Visit - National Natural Science Foundation of China

Delegations of National Natural Science Foundation of China visited FHS on 15 May. Prof. Chuxia DENG with Prof. Terence POON received them in N22 Research Building in that afternoon. They introduced the research laboratories and facilities in FHS to the guests. Prof. DENG then presented the current research projects and the research prospects of FHS and had discussion with the guests in the subsequent meeting.
