### B-CAT Meeting

#### Understanding Fungal Spores - the Infectious Propagules for Pathogenic Fungi – Prof. Chris WONG

At the B-CAT meeting on 19 June, Prof. Chris WONG presented his latest research work on the talk titled "Understanding Fungal Spores - the Infectious Propagules for Pathogenic Fungi". Prof. WONG reported that his lab has used a Functional Genomics and Bioinformatics approach to understand the activities inside the spores, and he found that they are highly heterogeneous. Prof. WONG strongly believes that this finding has important implications in understanding fungal physiologies and fungal infection studies.

**PRECISION MEDICINE SYMPOSIUM**
