Job Ref No: 2020001

Position: Postdoctoral Fellow or Research Assistant in nanomedicine and immunotherapy

Principal Investigator: [Prof. Qi ZHAO](#)

Closing Date: Until filled

### **Post-doctoral Fellow or Research Assistant in nanomedicine and immunotherapy**

The laboratory of Prof. Qi Zhao is recruiting a Postdoctoral Fellow or Research Assistant to conduct the study of novel immunotherapy in leukemias and solid tumors. The major responsibilities include (1) nanomaterial-based immunotherapy; and (2) antibody-based therapeutics, including bispecific antibodies and chimeric antigen receptor (CAR) T cells. He/she will also help maintain the lab and provide technical supports or supervisions to the graduate students.

Applicants should have a bachelor degree (Research Assistant) or PhD degree (Post-doctoral fellow) in chemistry, nanomedicine, immunology, or related field, and have a strong interest in cancer immunotherapy. Possession of a master degree will be an advantage for the application of Research Assistant. Proficiency in chemical modification, nanoparticle synthesis, or lentiviral production is a plus. Previous publications in peerreviewed journals are required.

#### Contract Period

One year and renewable subject to mutual agreement and availability of funding.

#### Remuneration

Remuneration is highly competitive and commensurate with the successful applicants' academic qualification, current position and professional experience.

#### Application Procedures

Applicants should send an up-to-date C.V. and other relevant documents to Prof. Qi Zhao (email: qizhao@um.edu.mo). In the subject of the email, please clearly identify the following: "Job ref. no. + Name + Position". Applicants may consider their applications not successful if they were not invited for an interview within 3 months of application.
