Job Ref No: 2022001

Position: Research assistant in biological imaging under the Biological Imaging and Stem Cell (BISC) Core

Principal Investigator: [Dr. Weiwei LIU](#)

Closing Date: Until filled

Research Assistant in Biological Imaging

BISC Core is recruiting a research assistant for the management of microscopes and other imaging instruments.

Responsibilities

1. Management, maintenance, and record keeping of microscopes, other imaging instruments, and image analysis software.
2. Procurement of consumables and parts, and renewal of service contracts.
3. Sample processing for specific instruments.
4. Training and assisting users to use imaging instruments.
5. Collaboration with researchers in scientific projects.
6. Maintaining a safe and productive lab environment.
7. Other miscellaneous duties; Help with duties in other sections of the core.

Qualifications

1. Bachelor's degree or above in bioimaging, cell biology, engineering or related field.
2. Ability to learn instrument operation, image analysis and other necessary techniques.
3. Good problem-solving skills.
4. Relevant research or working experience would be an advantage.
5. Good communication skills, good team spirit, and a strong sense of responsibility.
6. Fluent in English and Chinese (written and spoken).

Contract Period

One year and renewable subject to mutual agreement and availability of funding.

Remuneration

Remuneration is highly competitive and commensurate with the successful applicants' academic qualification, current position and professional experience.

Application Procedures

Applicants should send an up-to-date C.V. and other relevant documents to Dr. Weiwei Liu (weiweiliu@um.edu.mo). In the subject of the email, please clearly identify the following: "Job ref. no. + Name + Position". Applicants may consider their applications not successful if they were not invited for an interview within 3 months of application.
